September at Language for Life

It has been a **bittersweet** summer so far (Idiom: some happiness and sadness). Fires, intense smoke and a rise in COVID-19 cases have created a lot of suffering in BC and throughout Canada in the last few weeks, and it has not been a **walk in the park** for most of us. (Idiom: a walk in the park - something that is easy.) We have been saddened by the effects of climate change and so many other things that are happening in our world at this time. Reading the news these days can make us feel helpless because we have no control over so much that is going on. Our **hearts go out** to all that are suffering. (Idiom: Your heart goes out to someone or something - you feel deep sorrow or sympathy for people) 😞
The one thing we can control however, is **LEARNING ENGLISH!!!!**
This is good news!! 😊

Why learn English with us this fall??

- English is the official language of 53 countries.
- English is the most widely spoken language in the world - at least one out of 5 people can speak or understand it.
 - English can help you get a better job.
 - English makes it easier to travel.
 - English helps you make friends in your Canadian community.
- English is the language of the media, business, science and technology.
 - English helps you increase your educational opportunities.
- English is fun and frustrating at the same time - but it helps you have a sense of humour. 😊 (Idiom: sense of humour: the ability to find things funny)
- Learning English will help you understand different cultures, communicate with people from all over the world, and observe habits that are different from yours.

ATTENTION!! 🦠💉

COVID-19 is still a big concern in our community and the number of infections are increasing.

In order to register for any of our courses, we need
